Logs for a chaplain counseling.	This has taken the logs onto a whole new journey. They are becoming more in depth and more information is being compiled to allow the patients team to be better equipped to care for them.
Chaplain counseling	This is going to a deep level to explore the needs of the patients. You go into deeper territory and help the patient begin to cope with what they face as patients.
Debriefing	This is an excellent way to get off the negative feelings that have accumulated through the week. Father Bart gives me one on one time and it is heart to heart. I am grateful for this time.
Huddle and prayer	I enjoy this time in the morning.
	This is the only place I have ever worked that I am prayer over and nourished as a worker. The devotionals that we take time to prepare and read to one another are outstanding and they set a mood for us to follow for the remainder of the day.
Spanish conversations.	My Spanish is picking up so rapidly. I am able to converse with the patients on a deeper level and able to help them.
