- III. I am no longer a victim.
- IV. Glory to God.

## Christianity

- I. Christ follower.
- II. someone who has moral value.
- III. believing in Heaven.
- IV. Here to help others.

Before I start let me explain to people what the Bible is. It is a living legacy, and there is no lies in it. The way people are supposed to live their lives is in the Bible, nothing left out. What this supreme book done for me, I cannot find words to explain. Today I am who I am now; it is because of this **Basic Instructions Before Leaving Earth**. People will be amazed what they can learned from this supreme book.

As I mentioned before the way I use to live my life was shameful. Things I experienced I will never wish anyone to experience them. I didn't who I was, why am I here, and I even try to commit suicide. That was how messed up that I was. I did not know what love is, I was hopeless and helpless at the same time. I did not know anything about the Almighty, if somebody is there to help me. It reached to a point that I could not take any more, and I ended up using drugs, alcohol, you name it. Until one day that I said enough is enough, some one gave me a Bible and I started reading it. Ever since then my life has changed for ever and ever.

I have gotten my identity back. What I mean is that, no matter what I do the Almighty will never give up on me, He still has unmeasurable love for me, and that gives a reason to live. What is really interesting is that, people who know me back then they refuse to accept the new me, how I change. The Bible has done so much for me; and I am glad indeed, once again I strongly advise people to read the Bible. You will benefit from it. From my understanding I can say that to people. It is either the Bible or nothing at all.
