

The kingdom of Israel was a nomadic society which slowly became a settled society, when they had eventually reached a land of agriculture. Later in the history of the kingdom of Israel there was a division of the tribes that came together into smaller kingdoms which spread across the land and multiplied and mixed with others and eventually the cultural heritage was effectively different from the original kingdom.

In the kingdom of Israel the monarchs were the law, the priests were the adjudicators of matters of God and the soldiers kept the law and waged Holy wars against the enemies of the children of God.

In today's society specifically the Americas were nomadic from its beginnings. From colonial settlers from the United Kingdoms and Europe, eventually migrations began from across the globe. Just like the kingdom of Israel the Americas colonies were made of different cultures from the world coming together to build a nation of progress and the pursuit of happiness. The cultural infusion was very much slow at first with a cultural segregation.

However in these modern times acceptance and progressive living has brought about a generation that is mixed. The unprecedented technological advancement has made it easier and faster to assess historical data, cultural, scientific and many more. The access to public information and communication has greatly advanced the development of new cultures and ways of life.

Israelis are often considered brusque or even rude by Western visitors, but this is customary rather than deliberate, and honesty, directness, openness and warmth are the norm here. Israelis tell it like it is - a rare trait in the politically correct world. Hospitality is commonplace and locals delight in sharing their beloved country with visitors. Remember, it's only technically been an independent country for 50 or so years, so everyone that lives there moved there by choice. You may be invited to share a meal in an Israeli home and presented with huge quantities of food. Getting drunk is considered impolite, as is backing away from an Israeli during a conversation, they are close talkers by Western standards.

1. How does your society resemble other societies in this chapter?

My society resembles other societies in this chapter in the way nomadic beginnings, exploration and the expansion of certain kingdoms around the world created the opportunity of discovery and mixing or diluting of cultures to form a new society.

2. How is it unique?

My society is unique because unlike the Kingdom of Israel it embraced the differences and called for unity when it began to drift apart. There is not a single culture that defines

my society but the many cultures that defines it. That created a unique development and technological advancement so there is
