Assignment: Slavery & Race Assignment Week 4

Date: February 8th, 2023

- What was the image of slavery before 1500?

To my understanding of this period of time is that the image of slavery shows that Romans enslaved the Spanish people, But before that the Spanish people enslaved Native Americans.

- What factors contributed to a new construct of slavery?

There was two factors that contributed to the new construction of slavery are: slavery trading and slave societies.

- Why & How were the American slave population dehumanized?

Slave owners derhumanized its slaves by exploiting the slaves by over working them, raping the women to reproduce more slaves.

- Define the new racial construct which emerged, especially in colonial southern society and the Caribbean and the justification behind it?

Southern colonies became more dominant than other colonies. The British colonies did not conflict with the de facto structure of the Northern colonies. Relationships between colonies can become affected.

- Do you see remnants of this in 21st century America? Explain

Remnants are a small quantity of something. Yes! We do see some form of slavery and or racasim in today's era. We still see some traits of slavery and racism in how some businesses hire individuals for specific job positions based on their legalization in the

country. And the political influence of those who use their political views to influence racism.
