

Joan Porter Thomas

Professor R. Steven Notley

BIB381: Land of the Bible (NA)

February 7, 2023

Attendance Summary 3

Professor Notley apologized for the absence of last week recording, He reminded student that the map marking is very important. In said we could make use of the extra credit offered from time to time. He reminded us of the importance of the map legend.

He discussed the maps marking for the last class Map 4:1 tells about the coming out of Egypt. He said Megiddo had 27 layers; people built on each other. They took out slices, like cake. This site existed 120 to 130 years. They found pottery that compare to dated pottery.

He said the way of the sea is not the International Coastal Highway. Isaiah 9:1 described the way of the sea.

He stated that David conquered the Hilly area of the Philistine and made it his capital and it does not belong to any state Solomon rebuilt Gezer and Heron King of Tyre resisted Solomon.

Archologist sees Phoenician influences and cedar of Lebanon.

Map 9.4 speaks of Tiglath Pileser¹¹¹, Assyrian Northern Conquest, (2 Kings and Is 9:1). The phrase is "The way to the sea, not the way of the sea" It is also not "Galilee of the Nation" Galilee means nation. Harosheth-ha-golim was captured by the Assyria, mentions in (Judges 4:13), (Judges 4: 2) and (Judges 4: 16). A student asked a question, I did not hear what he asked. Paul was the first to use the name Gentiles. Gentiles was called nation in the Old Testament.

Professor reminded us to do the summary and said next week the lesson will focus on the North. He went over the assignment for week 3 and encourage us to study.
