Professor Notley

Contact Grade Assignment

20 February 2023

For week 5, We were asked by Professor Notley to submit our contract grade (Grading Compensation=onsation and Scale for the spring semester. I believe that in order to succeed one needs to set measurable goals that are obtainable. I take pride in making sure that my assigned weekly homework is complete I have had Dr. Notley's course on New Testament Literature and I'm familiar with what the expectations are. I understand that there is a Book Review (The Parables Jewish Tradition and Christian Interpretation) and the research paper (#39 Sheep and Goats Mat 25:31-46) which will be due along with all other class work that is due on the assigned dates. I would like for the end result to be an "A" at the end of the semester. Like my mother will often remind me, always remember to do your very best. Pray about it and keep focused and measure your time wisely. At the end of the day you know you did your very best.

Regards,

Joshua Smith
