Journal 5

During a recent clinical practice session, I met Miss Hernandez in the medical-surgical break room. We were assigned patient rooms and instructed to complete the clinical packet for week 5. The primary challenge I faced during this session was navigating an unfamiliar environment and acquiring the required information from patients who were often unresponsive or facing language barriers. Despite this challenge, I developed a rapport with patients and patient care staff within the unit, such as the charge nurse, environmental service workers, and nursing aids. Additionally, I recognized that there were areas where I struggled and was able to allow my peers to take the lead, which was an accomplishment in itself. One scripture verse I believe helped me this week in clinicals would be, "For God has not given us a spirit of fear and timidity, but of power, love, and self-discipline." - 2 Timothy 1:7 reminds me that even though I may face challenges associated with an unfamiliar environment, God has given us the spirit of power, love, and self-discipline, which we can rely on to overcome situations that may be difficult and still manage to achieve our goals.
