The Ten Commandments Assignment

I learned that The Ten Commandments appear in Exodus 20:2-17 and in Deuteronomy 5:6-21. The ten commandments came around when God freed the people of Israel from slavery. On Mount Sinai God talked to Moses about laws he had created for the people of Israel and also talked about why he brought them from Egypt. This was to put them on track of their life and relationship with God. The tablets that were made by God were soon to be destroyed by Moses because of his anger which made God force him to rewrite them but it had to be the same way it was before. I believe that the ten commandments are telling you who to worship and who to listen to. These commandments reflected the standards of ethical and spiritual conduct that God wanted his people to uphold. The ten commandment was given to Israelities so they could have law to grow the community they lived in. These commandments were written by God on tablets to people. In my opinion I feel Christians should decide on their own if they want to obey the ten commandments or not but it's their decision and choice. The New Testament doesn't say much about obeying the ten commandments but the two testaments are similar. In the New testament the list has shorter sentences on each commandment but the old testament has longer sentences on the commandments. The Old Testaments concept on salvation has concepts that include restoration, blessings, and healing for his people.
