Christ Our Savior

In the bible we hear stories of sinners and people who want to change their lives around but don't know who to go to until one day a man named Jesus showed up to give the good news about God and how he can save us all from death so we can live forever. This would make Jesus famous where some people wouldn't like this new way of life so they would have Jesus crucified. When being crucified Jesus the man who never sinned would offer himself as a sacrifice for all people from then to now to save everyone because since Jesus never sinned he would die for everyone's sins so everyone could be saved instead of meeting the fate they deserve. Jesus saw that and took the fall for us so we could be saved, this is why Christ is our savior because he made it his mission to make sure he can save us all out of his love for us all. Now people from all over can walk with Christ even after falling multiple times because Christ is our savior and was our only so now we can be forgiven by God because in all reality we deserve death for all of the sins we commit but Jesus saw passed that so he made it easy for us to be forgiven but all we have to do is just walk in faith and not only believe in Christ but also follow God's path for you.
