

While learning about my Spiritual gift it's not surprising on two gift that I was given and that because of my life changing experience. I believe that we should do a spiritual gift evaluations every 5 years to see how far we have come and to see some changes we had made in our life. In this paper I will discuss how your awareness of this assessments enhance your growth as a ministry leader. I will also talk about how helpful the spiritual assessment was helpful to me. While doing the Spiritual assessment the topic three gifts that was pointed out was Evangelism, Mercy- Showing, and Serving. I feel that this is spot on for me because I like talking to people about Jesus Christ and I don't mind sharing my story with others. I feel like if we don't share our story it will be hard for others to relate because they see us doing good now but they don't know how we got here. I didn't get to this point of my life overnight it took me a while to speak to other I had a bad stuttering problem I use to get tease very badly and I didn't want to talk. But as I continue to grow in Christ He help me to get over that and I began to grow in confidence to speak to people. That showed me that if God has a gift for you then He will make a way for you to do it. Evangelism is to be taken seriously because you are God representative to speak the people who are lost and broken and we are that guiding light to show them Jesus.

Another gift that was given to me was Mercy this is the first time I have seen that when doing a spiritual assessment but I 'am not surprise because my heart goes out to people and life is rough sometimes and everyone need someone to cry with or to talk too. But also, we are we to judge people we were all born into sin and we have to show some mercy to our brother and sister as Jesus showed us mercy. But to be honest this time for me to develop and that because of the word of God that help me to show mercy for other as Jesus has given me and everyone else grace and mercy.

The last gift was serving my grandmother taught me how to serve when I was growing up not just inside the church but outside. We have to first serve at home before you can serve anywhere else. I like to help people and show Christ the way He serve His disciples. Serving is special for the kingdom of God we often take this for granted, but Jesus is the great example of serving especially when He wash his disciple feet. Jesus who is the king of king is teaching us on how we suppose to serve and to be a servant for the kingdom of God. I feel like taking these assessments show us our strength and weakness of our spiritual gifts. Sometimes we need to take time and look at things we need to work on and also see how far we have come over the years that we have grown. I believe that doing this assessment was very helpful in show me in areas where I have grown and some places where I am weak and to reflect on the areas on why I'm weak in those areas. Thank you, Professor, for reminding me to take time and do these exercises and see how I have grown in my spiritual walk.
