Assignment: Nationalism

Date: March 1, 2023

This week's assignment focuses on Nationalism. From what I got from the short video and a few websites that I found to demonstrate or give a definition on what nationalism is? All I can come up with is when a nation or country looks to exclude a group that does not have the same interest.

In 1792 the French thought they would be able to consolidate many of the Italian states by winning the war against Austria, but in 1799 Austrian and Russian armies kicked the French out of the Italian-Peninsula.

It was under Napoleon's power that the Italian Peninsula was conquered again and Napoleon's family ran the country and divided them into three entities or territories.

In 1814 Napoleon had fallen to one of the territories of Vienna, this territory began to reconstituted from 1814-71 or the country has been reconstructing its states and territories since the fall of the Italian states. I'm sure many have moved out of the country and many stayed and endured the many changes.
