After this brief survey of your topic, What do you want to specifically study about this topic?

I really want to show women through my study we are a force to be reckoned with and we can stand united under god.

What do you see that needs to change within this topic?

How we respond to each other

Why are you passionate about this topic?

I love the sisterhood, I love the way women come together to share who they are in the world. I watched how my mother and the women around me interacted with one another and I want other women to know and have that feel as well.

What are you hoping to learn?

I want to learn and show just how powerful a bond with someone who is like you can be and how to make the relationship a constant part of your life even if it's not always with the same person or people.

What do you believe you will discover?

That the rumors are false and the accusations that women are catty and can not join forces when necessary is not true. There is a bond with women that only women can understand.
