Jamaica District Office

153-01 Jamaica Avenue, 2nd floor

Jamaica, NY 11432

Dear G Meeks:

As a constituent and a Social Worker/graduate student, I am writing you regarding the commitment on ensuring that the children are safe in schools, reducing gun violence across the country and protecting our children. I agree with the passing of the protecting Our Kids Act and Federal Extreme Risk Protection Order Act. This is extremely important as there have been multiply school shooting and children being kills by illegal guns. I stand behind you as a mother and grandmother. The Bipartisan Safer Communities Act, Also I am glad that it will contain the explanation of background checks for people 18-21 years old, stop domestic abuser from getting gun trafficking and straw purchasing, including millions of dollars for school safety, and more.

I am so proud of your achievement as a congress man for New York 5th District of sponsoring these bills because I am sure that this will make our street and our school much safer for the children. There has been multiple shoot of our children in school not knowing what is going to happen to them or if they are returning home. Parent are not supposed to bury your child or make funeral plan for their child. It is a nightmare to get a phone call that you should come and identified her child. How can one deal with the pain of not knowing that you send your child to school and the child is not returning home

People leave your home and may not return home You are going to work, and you may never reach work or return home? I am glad to bee a part of your district and I will always support you for looking out for the children and the families they left behind... Someone must be the mouth for the children who have lost their life because of no fault of them. There are innocent and have no live any life yet

“The *Protecting Our Children Act* Isa package of bills that would raise the purchasing age for semi-automatic weapons, outlaw high-capacity magazines for civilian use, and crack

down on gun trafficking, and more to reduce gun violence. The victims of gun violence and the loved ones they've left behind require that there are many more need to be done but this is the first step in making sure our voice is heard. I am hoping that you will continue to advocate for the victims of gun violence and the loved ones they've left behind require congress to do more and to say enough is enough. I am hoping that all the senators to immediately bring this legislation to the floor so it will soon be a bill. Continue doing the good work in listening to your community want.

Sincerely,

Beverly Wilson
