Written Assignment 4

In reading this whole account I felt that neither King had faith in the other and that evil-doing was taking over and not putting faith in God for their victory. What I felt about Ahab was that he was evil and would not listen to God and felt that what was told to him wasn't true for Jehoshaphat his character was ok because he prayed for help from God to try and defeat the army but his choice to use and the evil king would put him in trouble with God and receive punishment.

As for Micaiah, he was a prophet used by God and he tried to help Ahab prepare for war by telling Ahab the vision he was given he said that God says "Therefore hear the word of the lord: I saw the Lord sitting on His throne, and all the host of heaven standing by, on His right hand and His left. but Ahab was not happy with that and proceeded to put Micaiah in prison. In all of this that was going on, I felt God's character in the text is that he will keep his promises when he speaks, and if it is for you to prosper it will be delivered, although an evil king needed to be persuaded to listen, God, decided to make a judgment against all with a lying spirit because no one was humble enough and did not listen to Micaiah.

What lesson I can learn from this is I feel from that when I am not sure of anything and I can not get the right answers from anyone I will put my request and concerns in prayer to God because He will have a better answer for me as long as I am patient and believe that he will provide at my time of need I will be all right. He will show me well as long as I walk humbly with God by my side I will receive his blessing.
