Old Testament

March 7th 2023

At first there was peace for some time then after the third year a king went down to see the king of Israel to fight over some land. Nothing happened for awhile they wanted everything to be prophesied before waging a war over land. A spirit then came down to entice him. Ahab then dies in Ramoth Gilead, the king then disguises himself and goes into battle. Some how the king gets hit by an arrow where his armor was not protecting him, he then gets badly injured and needs to be pulled out. Ahab dies then his son succeeded him as king.

Ahabs was a terrible person, he led israel to a severe drought, he refuses to submit to anyone who is above him.

Jehoshaphat was a good king israel prospered with him politically, there was prosperity, he was a good and wise man.

Micaiahs was a prophet, he was put in prison to test his validity. He knew people would not like the truth.

What we can learn about God's character is that God has control over things and he can see everything that happens so watch what you do and say. Being honest even

when the truth is hard is very important because the truth is the truth even when people dont want to hear it.
