12:15pm-12:30pm

In the beginning of the course I genuinely appreciated the time Dr. Lux welcomed her students with a lovely written welcome and a virtual peacock feather. I felt welcomed and less timid about starting my class online and I felt the care that went into Dr. Lux's classes. In this course I have absolutely enjoyed Dr. Lux' teaching. She is the only professor I have had that responds to my homework in much detail. The amount of care and how much investment evident Dr. Lux displays with her students is in the likeness of Christ. It is easy to feel secondary in taking classes online. Some of my professors do not respond to my questions online. I have not had that experience with this course. Dr Lux always responds and is so encouraging and kind in all her correcting of my work. I have truly appreciated this course and all its aspects. I am considering taking on English as my minor because I have had such an amazing experience with this course and feel like I have been equipped with the tools to succeed. I have gathered a plethora of information in the first half of this course and am eager to learn more in the second course.

The least helpful part of this course would be not being in class and asking Dr. Lux questions in person. In all honesty I have not experienced anything that was not helpful to me in this course. I appreciated the course itself and my professor.

God is good and I am blessed to know that this course has a Christ like foundation. I am grateful to be able to write about my faith and to be attending a college that holds the same values I do along with the teachers displaying a Christ like foundation.
