

Kyria Cameron  
Week 4

For my final project, the passage that I will be working on is found in Mark five, verses 21 through 42. The reason why I'll be doing this passage is because, this is one of my favorite stories in the Bible. I am going to discuss the differences and similarities between Jairus and the woman with the issue of blood. I am also going to speak about, how this story applies to our lives now, what are the major points we can derive from this passage and what does the author Mark want us to know about these two people in this story. There is so much we can unfold from the story and I believe there are hidden gems we can use and apply to our everyday lives to get us through the difficult situations we may face in life.

The way that I will probably present this is in a recorded sermon presentation. I believe a recorded sermon of me explaining Mark 5 21 through 42 would be best because I am a better public speaker than I am a writer. I'm able to explain myself better by speaking, and I believe that I'm able to break this passage down better by speaking it instead of writing it.
