## **CHRIST OUR SAVIOR**

### **JOURNAL 1**

Christ our savior is to be able to know that in Christ we get salvation, we received salvation in the death of Jesus Christ. We must repent to get salvation, since we are sinner and to get salvation we must repent, and we must accept Jesus as our savior. If we don't accept Jesus as our savior when we died no one in heaven will know us. With salvation we will be able to carry out his works "the Gospel of your salvation." Getting the gift of salvation is the way to the carry out God's providence since we are all children of God, everything on the earth and in the heaven is ours. With salvation we will have eternal life and salvation regenerates our souls and our lives that are worthless, and salvation is free so we should accept his gift of salvation.

What resonated with me is that to turn away from my sin and get salvation, I must give my life to God. Then if I die today, I know that it is well with my soul and I will have eternal life with God, because after death there is life in God. I want to know that after I die, I will be secured in the arms of God my father. The challenged that I have after giving your life to God, the devil try to do everything he can to block your salvation. To overcome I must be strong in this life since, "Salvation delivers us from Satan's power and kingdom." With salvation we are saved from endless death, with salvation we will have grace to go on from day to day.

In conclusion for us to get salvation we must first accept Christ as our savior, to get salvation we must have a new heart in Christ. We must accept his commandment to get salvation to be delivered from the curse of sin that we were born, because Christ gave his life so we can have salvation. When we be free of the fear of death because we know that after we die, we will have eternal life.
