### Film Response

1. The Gupta Empire was known for its significant achievements in mathematics, including the invention of the decimal system and the concept of zero.
2. The Gupta Empire was a Hindu dynasty, but it was known for its religious tolerance and patronage of Buddhism and Jainism.
3. The Gupta Empire was characterized by a strong central government and a sophisticated administrative system that enabled it to maintain control over a vast territory
4. The Gupta Empire was a period of great artistic and cultural achievement, with notable contributions in the fields of literature, architecture, and sculpture. The famous Iron Pillar of Delhi is a testament to the impressive metallurgical skills of the Gupta artisans.
