Principles of Research

Summary Part A

1. What is your main hypothesis statement?

My main hypothesis is “H1, There is a relationship between impactful leadership and spiritual growth”.

2. What is your dependent variable? What is the name of the scale you have chosen to measure this variable?

The dependent variable for my paper is “Spiritual Growth”. Besides having my articles I am still in the process of finding instruments.

3. What is(are) your main independent variable(s)? What is the name of the scale you have chosen to measure this variable?

The independent variable for my paper is “Impactful Leadership”. Besides having my articles I am still in the process of finding my instruments.

4. Describe your data collection opportunity? How and where will you collect your data?

My data collection isn't and won't be that difficult because I will be collecting data from my peers here at Alliance University.

5. What is your level of analysis?

As a continuation to question number 4, once I finish gathering my information from the Alliance University database I will be surveying the students of ATS department with the permission of the dean from that department.
