Paper Outline

Personality of Psych

● Introduction

- My paper will be about Maslow and his hierarchy needs to criticize them from a Christian view point. My thesis and as well as information about Maslow will be in this section. As well as the points that I will discuss in my paper.

● Body Paragraphs

- This portion of the paper will talk more in depth about Maslow's life and his theories as well as his hierarchy of needs. What they contain and as well as breaking down each and every hierarchy need. Analyzing them as well from a Christian viewpoint. If they fit well with a Christian life or if they don't. Points such as if basic needs are really the basic needs in human life. Or if fulfillment according to Maslow is considered okay in a Christian viewpoint as well. Argue if any of the hierarchy needs if any are just for the secular world. See if any of the hierarchy needs are part of a Christian lifestyle. See how a secular person might differ in these hierarchy of needs as opposed to a Christian.

● Concluding Points

- My concluding points summarize my paper but as well make emphasis to the points mentioned in those body paragraphs. Emphasis how a Christian looks at these needs as opposed to a non-Christian.
