CHRIST OUR SANCTIFIER

JOURNAL 2

The sanctification of Christ is not our own work, but it is to grow in Christ and to be a more mature Christian. Sanctification is giving yourself completely to God and not just a part and then Christ will cleanse you from all sins. Even in Christ we will not be perfect at times flesh will fail, but when we fall we pick ourselves up and look to God for help. We must know that we need God in our lives, we must live to please God and to choose his way. To be sanctified means to be separated from sin, and from the things of the world. To be dedicated to God is to be sanctified by completely pleasing God, by letting God's will to be done in our lives. When we are sanctified, we have love which is the love of God that is living in us.

God gives us the gift of sanctification, by giving us Jesus who died on the cross for our sins. When God sanctified our body, he will live in us, and he will transfuse his life by living through us when we are completely dedicated to him. We must surrender our lives completely to him, by giving our hearts. As stated, "I am dead, my own life is surrendered and buried out of sight. Jesus is my sanctifier and my all in all. I surrender everything in his hand for him to do with as he thinks best." But as the devil comes, I will be able to stand in the word of God, even

when I fail, I will give my all to God because “I can do all things in Christ, who strengthened me.”
