Director of Stuffing,
Super Soccer Stars,
Hoboken, NJ 07030

Dear Mr. Geisler,

I am a current student and athlete, from Alliance University in New York and I have great interest in the youth soccer coaching position you are advertising.

Since the age of five, I have received a soccer education in Germany, in which I played in the 2nd Youth Bundesliga for several years as captain of my team. I was able to use this education to get a soccer scholarship at Alliance University in New York. I was able to establish myself as a regular player here from my first season in the D2 and reached the Championship Finals of the CACC this year. Both athletically and academically, I have already been able to receive awards such as „Rookie of the Week“ and „All CACC Academic Team“.

In your job description, you say that you are looking for a youth soccer coach who brings a positive, special, and goal-oriented motivation, qualification, and experience and ensures to build a successful team. The values and motivations you pointed out, go well with my goal-oriented but friendly manner. Due to my experienced training in Germany in my youth and my current training in the USA, I possess a high level of experience and knowledge.

Above the athletic know-how, I also possess a strong social vein and maintain healthy and fair cooperation, which is based on equality and reciprocity. At the age of 11, I became team captain of my home club and even after a change in Germany I was appointed captain again after only 3 months in the new team and stayed in this position until my departure to the USA. As a captain, you have to be a liaison between the coaching team and the team, communicate a lot and ensure successful cooperation.

Because of my experience, motivation, and values, I think I am exactly the right person for Supper Soccer Stars. Working with young people and teaching them the sport we love, coupled with social and community values has always been a dream of mine.

Attached you will find my resume on. I would be very happy to get in touch with you personally and introduce myself to you.

With kind regards,
Magnus Mesters
