Lesson #9

In this week Lesson, Lunsford lets us know that when writing a research paper, there are many resources that we can use to get our research paper started. Some of the sources that Lunsford prefers/suggest are tools that can be very useful and can help when researching information.

Primary Sources: we can use our own field research such as films, work of art, etc.

Secondary Sources: descriptions of biographies, encyclopedias, etc.

One of the resources that Lunsford mention is the library. I find that going to the library can be helpful when writing and researching my papers or projects. Going to the library helps me to not get distraction on other things like looking at my phone, watching tv, or thinking about my job. I can sit down in a quiet place, gather my thoughts on what I want to write about and start writing.

This week exercise "Subject-Verb Agreement" I got a few correct. In exercise #3 my score was 22/25. In exercise #4 my score was 19/25.

Exercise #4

Every pale tomato slice, wilted pickle, and brown lettuce leaf, _____ an extra 25 cents at Bernie's Burger Emporium

A) costs

B) cost

C) costed

D) had cost

The choice that I selected was **B. Cost**

The correct answer was A Costs.

Every pale tomato slice, wilted pickle, and brown lettuce leaf, **costs** an extra 25 cents at Bernie's Burger Emporium

Choice B was wrong. The reason why it was incorrect because, every requires a single verb.

I selected choice A which was correct however between the two, choice A and B was tricky. I assumed since the sentence mentioned more than one subject than that is why "costs" was the best fit compared to "cost".
