Tokyo

NEW YORK

Mumbai

Lagos

	Tokyo	New York	Mumbai	Lagos

Similarities	Large-scale global city.

With this mega city comes pollution due to significant public transportation networks such as, taxis, railways and buses and ferries.

Merchandise from all over the world

Climate are almost the same as NY

Culture: art, festivals, foods, galleries, vibrant night life, tourism | Large-scale global city.

With this mega city comes pollution due to significant public transportation networks such as, taxis, railways and buses and ferries.

Merchandise from all over the world

Climate are the same as Tokyo

Culture: art, festivals, foods, galleries, vibrant night life, tourism | Large-scale global city

Public transportation: taxis, railways, and buses and ferries

Culture: art, festivals, foods, galleries, vibrant night life | Large-scale global city

Public transportation taxis, railways, and buses, and ferries

Culture: art, music, night life, |
| **Differences** | Tokyo's is the largest city with a population of 40,800,000.

Unitary Parliamentary constitutional monarchy

Economy: Third largest GDP, technology

Culture life is different than that of NY, Mumbai and Lagos, no crime,

Transportation is more efficient than NY. | New York City's population 23,100,00.

Form of municipal government which consist of a mayor and a city council

Economy: Global hub of business and commerce, banking and finance, and technology

Transportation is not so reliable

Environment: | Mumbai's population of 26,600,000.

Parliamentary government

Economy: Mumbai ranks second productive in the metro area, large textile mills.

Tropical Climate the same as Lagos

Environment: air pollution is still a major problem | Lagos' population of 21,400,000.

De facto government

Economy: Commercial banks and finance business and technology.

Tropical Climate the same as Mumbai

Environment: affected by sea level increases. |

		Has implemented the clean diesel for mass transit	for Mumbai	
	Environment: Tokyo has the greenhouse gases in place			
Which List is Important ?	In reading about all four mega cities, I find that they are all important due to we can learn from each city and implement what each city has that worked for them. In my mind the most important listed is Tokyo, it is simply and continuously looking to find ways to innovative. With implementing the greenhouse gases for the environment to make Tokyo a better place, the economy, the city has everything for everybody, art galleries, night life, even pod for introverts and peace of mind, and crime rate is low.
