1. What was the stated reason for the genocide in each instance?  
The killings were based off of one leader or one small group (elites) that felt the need to eliminate/kill innocent people to maintain power over people based on ethnicity, religion, social status, and to control those whom are weak.
2. Do you see a pattern in this reason?  
The pattern I see in the video between Cambodia, Germans, USSR, Guatemala, Rwanda and Bosnia, etc., were "to do away with people" that stood in their way of their power or any strange culture and or influences.
3. Are elements of civil war, or nationalism, or racism, or religion involved in genocides? Do you see examples of identersts? Be specific as to the nation/group and the aspect involved.  
I believe that there are the above said elements involved in genocide. For one, Bosnia, Rwanda and Guatemalan militants and Cambodia was based on nationalism and any won who did not join their group were to be killed. Two, the Soviet, Germans were based on political power, racism and religion. Three, Guatemala did not want the people to progress. It all boiled down to the powerful would eliminate the weak.
4. How do hierarchies and politics impact genocides? How?  
Hierarchies and politics impact genocide by elite political leader or leaders by building a force to exclude their own people in their state.
5. What do you think can be done to stop genocides from happening in the present/future?  
To prevent genocide, it must be done as a whole, collectively, together to put those who arranges a leading group to eliminate and destroy national, ethnical, racial or religious groups. We must gather information and actual factual information, speak out to protect civilians that are in harm's way of these groups, inform the proper authorities. And lots of prayer because it is easy said than done.
