Legal Recruitment

Research Analyst

OAG Division of Social Justice, Civil Rights Bureau

28 Liberty, 16<sup>th</sup> Floor

New York, NY 10005

Dear Legal Recruitment Advisor,

As someone freshly graduating with my Bachelor's a year earlier than planned, this Research Analyst position really jumped out at me. It is the perfect fit for my love of data and my passion for social justice. With my degree in Information Technology, I have practiced almost everything under the data sun such as data collection, cleaning, analysis, and visualization. Already, I've had the chance to put these skills to use in my position as Database Coordinator for my school's (Alliance University's) Writing Center. Here I managed my own AWS database using software such as MySQL Workbench, Tableau, and Google Suite. This spring I am also taking my certification test for both CompTIA+ and Tableau Desktop.

Throughout my studies at Alliance University, I have learned so much about Race and its delicate relationship with America. My position as an RA allowed me to interact with and grow relationships with one of the most diverse student populations in the country. A class I took just last semester named "Our America" allowed me to explore the history of social justice in New York and visit important cultural museums all around lower Manhattan. I stand by the fact that being passionate about the data you analyze is the most important aspect of the job, it allows you to really understand the metadata and create storylines from what you read. With the Research Analyst position, I will be able to hone my skills in data analysis while also aiding a cause I care deeply about.

Thank you for your time. Hopefully, my writing sample from the "Our America" class gives you an idea of what I'm passionate about, and I look forward to talking to you about how my qualifications could meet your needs. I hope to be hearing from you soon.

Sincerely,

Ryan Simpson
