

PAPER PROPOSAL

(Anthropology) Are male and female equal with equal access to roles in the church and society, or are they created in hierarchy with males having greater access than females?

THESIS

The question of hierarchy is deemed to arise only if God differentiated between his creation. We say God is a provider for all. So, while there may be differences in how we interpret the scripture, the debate on equality in Gender roles is evidently beyond interpretation. We are perhaps missing reading between the lines and oversimplifying the interpretation of scriptures by assigning Gender Roles. It is rather a debate of comprehension vs psychology and nature vs nurture influencing our comprehension of the scriptures.
