

Sungjin Park

ENG 101

April 17, 2023 6:58pm - 7:17 pm

I am thinking about technique for my paper but I cannot find any technique. The best thing I can do is sit in a chair until I finish the paper. Because I do not write English well so that I need much more time to do my paper assignment. However it is limit time to do it. So I have to finish thinking faster and start writing papers. I feel rushed when I think about the time when I start looking for data, finish it, and correct it. An urgent mind sometimes strangely stimulates my brain. I think these could be the techniques I have. I realize that my English level is not good yet, and in order to get better, I promise not to neglect my studies during the vacation even after the spring semester.
