“What techniques have I been using to get my paper ready on time? Explain by using the freewriting technique.”

Techniques I would like to use are my tone. As someone that has experienced being bullied, I want to be able to express my feelings towards bullying to the reader. I also would like to use my sources more creatively. And implement my quotes in a way the reader can understand. Usually in my essays I use a lot of quotes and it can be too much to put in my essays.
