Anthropology

In this day and age this new generation is very big on equality for both male and female in all aspects of life. The church should be no different, right? Many people have become aware of the fact that females have not been given the same opportunities as males do in the churches. There are two prevailing Christian perspectives which are complementarianism and egalitarianism. Complementarianism refers to hierarchy as in your gender determines your role in the church while egalitarianism refers to mutuality as in your role in the church is based on gift and ability. Your gender should not determine your role in the church; your role should be based on gift and ability because the role should be given to the person that best fits the role.
