LIB101: Informacy Literacy

4/19/2023

**Topic:** Pets and Mental health the 2017 Honda Ridgeline truck. "*Lost and found*"

**1-Incorporate:** October 1946, Japan

**Reincorporated:** September 1948, Japan

**Auditor:** KPMG AZSALLC

**Country:** Japan

**Industry:** Automobile (IBC 40101 020)

**Industry:** Motor vehicles and car bodies (SIC3711)

**Number of employee:** 204,035 (Total full time as 03/31/2022)

**Number of Shareholders:** 201, 338 (as of 03/31/2020)

**Market Cap:** 51,176,672,400

**Net income:** 09387

**Dividend yield:** 35584

**ESP Basic:** 383, 67      **EPS Diluted:** 383, 67

**PE Ratio:** 9, 9435

Soichiro Honda (1906- 1991), the founder of Honda Motor Company. Honda has been the world's largest motorcycle manufacturer since 1959, reaching a production of 400 million by the end of 2019. Honda became the second largest Japanese automobile manufacturer in 2001. In 2015 Honda was the eighth largest automobile manufacturer in the world. Additionally Honda was the first Japanese automobile manufacturer to release a dedicated luxury brand, Acura in 1988. In 2013 Honda invested about 5.7% (US\$6.8 billion) of its revenues into research and development.

**2- Honda** employs an active sound system, noise from the engine is being enhanced and transmitted via the car stereo and played in the interior, which gives a feeling of driving a powerful engine even though the engine is quiet. On the other hand, excess noise is being canceled by the sound harmonic system, and this give your Honda a quiet ride blurring the noise from the engine and tires as you drive. Honda put in a stolen vehicle locator mechanism in 2018 and newer Honda models to assist the police in locating the stolen car. This vehicle locator feature has become very significant since car theft increased, and many Honda users consider it a lifesaver because it has helped in stolen car's recovery.

**3-** Today women have made great inroads into STEM-related (Science, Technology, Engineering and Math) careers, but unfortunately, we are still vastly underrepresented in many areas, including in engineering. Consider that women outnumber men in American college and universities, yet according to the society of women engineers, only about 20 percent of the bachelor's degrees awarded in STEM-related fields go to women. In the workplace, the numbers are even smaller, with women representing around 13 percent of practicing engineers, for example. That's a problem on several levels. For a mobility company like Honda, a diverse workforce is invaluable in creating better products and better

business outcomes. Technology serves both men and women, so the unique inputs of women engineers make important contributions to meet customer needs. Some people think engineering is also made for men there are a lot of women working in engineering they make a great job. We live in a society that people minimize women; I'm glad that women decide to show their value in capacity.

**4- Honda** as a vehicle modeled for every lifestyle. If you need a towing and hauling workhorse for the jobsite, the Ridgeline has your back. If you need extra space, but the capabilities of a pickup, there are plenty of SUV to choose from. From biggest to smallest, there's the HR-V, the CR-V passport, and the Pilot. But for those of you with growing families, you can't go wrong with the Odyssey minivan. Whether you want something cost-effective, the Honda civic and Fit are as the good as any on the market today. Honda HR-v offers 34 highway mpg, 141 horsepower and 127 lb-ft of torque. Honda offers and Eco assist™ system and all-wheel drive option. Honda Civic offers 158 horsepower and 138 lb-ft of torque. Honda Passport Standard 280-hp, 3.5L v-6 Engine. Honda clarity Plug in Hybrid offers up a range of up to 340 miles. Available 3- Mode Drive system incl. Sport and ECON Modes.

**5-** The first reason to buy a Honda is its reputation for building durable cars that perform exceedingly well. Honda reputation for creating durable vehicles is well deserved, when you buy a new one even though is expensive, but you know you make a good investment that you won't regret it .Most importantly, you should buy a Honda because of its world-renowned safety standards. The accord, for instance, has long been recognized as one of the safest and most reliable cars on the road. It has no shortage of active safety driver-assist features, as all models come with Honda sensing technology. This consists of forward-collision warning, automatic emergency braking, lane departure warning, lane-keeping assist, adaptive cruise control, and more.
