### Genocide Worse than War Film

1. What was the stated reason for the genocide in each instance?

In my opinion, there are two reasons for each genocide. One is the power to supersede. The other is darkness; you must carry a seed of evil to perform these acts.

2. Do you see a pattern in these reasons?

It starts with one person, the leader, who chooses the plan, then follows the people to participate. And finally, if anyone can intervene or stop it, it does nothing. This makes me appreciate and have a better understanding more on President Biden's decision on Ukraine matters.

3. Are elements of civil war, nationalism, racism, or religion involved in genocides? Do you see examples of interest? Be specific about the nation/group and the aspects involved.

Guatemala is an excellent example of a civil war. The armed forces captured them. All the civilians were killed, and the ones who managed to escape when they were caught were tortured, mutilated, sexually violent, and promote violence by the children. 4. How do hierarchies and politics impact genocides? How?

As Jonah Goldhagen states. "Eliminationist assaults are strategic political acts embedded in larger political contexts, practices, and goals." Therefore, exterminating a race will achieve its goals.

5. What can be done to stop genocides from happening in the present/future?

This should not be just a United States and the United Nations ns; it should be a Global intervention Plan as President Bidens try to get more countries on board. Also, those that cause these acts must be made accountable and should be punished. If not, it will continue, or they will be a clone who will become the perpetrator to continue.
