Week 14 DBQ

1. What are some important steps in finding work?

Some important steps in finding work in my opinion is being very active and positive in the process. Many opportunities will pop up but many doors will close because you have to remember that there are hundreds of thousands of people out there in the same shoes at least for this particular process. Trying to communicate and connect with people as much as possible is another great thing that can be considered as an important step.

2. What do you think is the most important factor in job satisfaction - being well paid or having the chance to be creative? Why?

In my opinion, being well paid and having the chance to be creative are both important factors for job satisfaction. However, if I had to choose between the two I would choose being well paid for a number of different reasons. I believe that if you are being well paid that allows you to be more creative in life and can open opportunities since you will have the funds to do so. Being well paid is something that just would make me feel good about myself on a regular basis.
