

Worksheet 5: Seminar Review

Thank you for participating in our Seminar Presentation!

Please complete the following review below to help our presenter grow in their professional skillset and refine their presentation.

1) Strengths:

What was great about this presentation? What emphasized the subject of the presentation and helped you learn new information? What compelled you to take action?

The information was great and very insightful in how to reach out to the pre-teens. As an after school tutor of this age group, this information compelled me to continue and renew my focus on them into reaching them with the gospel as well.

2) Weaknesses:

What pulls your attention away from the subject of the presentation and needs improvement?

I would recommend an earlier time to present to keep the audience focus and alert. For my perspective any time after 2pm is a down time for me.

3) Opportunities:

What good things were evident but could be improved upon to enhance the presentation?

The things that were evident was clarity, tone of her voice, and pace of the presentation was excellent. As a visual learner more graphs would have been helpful.

4) Threats:

What aspects of the presentation, if left unaddressed or unclarified, could detract from the efficacy of the presentation?

If the topic is left unaddressed, it could detract the church from the need to create a pre-teen ministry because the window to reach this age group is narrow.

5) Additional Comments:

It was very inspirational to see a young adult, like Noemi Burgos, laboring for a great cause. She is committed, passionate and devoted to the needs of others, in particularly to the pre-teens. Her love to the Lord will make her an exceptional leader.
