

Worksheet 5: Seminar Review

Thank you for participating in our Seminar Presentation!

Please complete the following review below to help our presenter grow in their professional skillset and refine their presentation.

1) Strengths:

What was great about this presentation? What emphasized the subject of the presentation and helped you learn new information? What compelled you to take action?

The presentation was greatly delivered by computer slides and well communicated, clear to understand as well as positive and confident body language. The importance made on the Pre-teen Ministry was the emphasis made on the need on reaching out to the age group of 10-12 years of age. A clear explanation on how this age groups brain is developing and seeking their identity.

2) Weaknesses:

What pulls your attention away from the subject of the presentation and needs improvement?

I honestly didn't find any specific weaknesses during this presentation the speaker was well prepared, well organized throughout the entire presentation.

3) Opportunities:

What good things were evident but could be improved upon to enhance the presentat

If I have to be specific, that would be that there wasn't sufficient time given to the speaker.

Threats:

What aspects of the presentation, if left unaddressed or unclarified, could detract from the efficacy of the presentain mprovement

Presumably, delievering more culture statistics that could effect this age group population in our communities. This could avoid any questionable ideas or thoughts on the subject matter.

4) Additional Comments:

On the overall the speaker Ms. Noemi Burgos, did a great job giving this presentation. It was clear concise, not overwhelming with too much unnecessary information. Maintained the audiences attention at all times. Her verbal and non-verbal skills were on point. Great job hands down.
