**Training Module 425 Quiz
FETAL ALCOHOL SPECTRUM DISORDERS (FASD)**

EMPLOYEE NAME: Pamela Giordano DATE OF QUIZ: 05-20-2020

Directions: Upon completion, please return the completed quiz and attached Training Summary Form to your Designated Coordinator (DC) or Designated Manager (DM) for review and approval.

1. Fetal alcohol syndrome (FAS) is a condition that results from alcohol exposure during pregnancy.

2. Place a check next to the following statements which are true about fetal alcohol syndrome:

- a. FASD is preventable.
- b. FASD is a lifelong disability.
- c. A stable, nurturing home is the single most important factor in protecting children with FASD from later problems including drug abuse, dropping out of school and encounters with the juvenile justice system.
- d. Traditional interventions do not work with FASD youth who cannot associate a consequence with a behavior.

3. The Mayo Clinic article identifies several signs of fetal alcohol syndrome. List three signs:

- a. Learning Disorders
- b. Poor coordination
- c. Heart defects

4. According to the MN Adopt Fact Sheet, five strategies to keep in mind when working with children and adolescents with FASD are:

- a. Keep information concrete
- b. Consider poor behavior as a physically based unmet need
- c. Maintain consistency
- d. Use repetition
- e. Maintain stable routines

5. Please identify any questions that you have at this time regarding FASD:

- a. Do any medications help reduce the effects of FASD
- b. Identify 2 agency resources that you can use for more information and/or consultation:
 1) Mayo Clinic FASD Document
 2) MOFAS FASD Document
