Training Module 425 Quiz FETAL ALCOHOL SPECTRUM DISORDERS (FASD)

EMPLOYEE NAME: Danielle Huff DATE OF QUIZ: 8/25/20

Directions: Upon completion, please return the completed quiz and attached Training Summary Form to your Designated Coordinator (DC) or Designated Manager (DM) for review and approval.

1. Fetal alcohol syndrome (FAS) is a condition that results from alcohol exposure during pregnancy.

- 2. Place a check next to the following statements which are true about fetal alcohol syndrome:
 - a. FASD is preventable.
 - b. FASD is a lifelong disability.
 - c. A stable, nurturing home is the single most important factor in protecting children with FASD from later problems including drug abuse, dropping out of school and encounters with the juvenile justice system.
 - d. Traditional interventions do not work with FASD youth who cannot associate a consequence with a behavior.

3. The Mayo Clinic article identifies several signs of fetal alcohol syndrome. List three signs:

- a. Vision difficulties or hearing problems
- b. Deformities of joints, limbs and fingers
- c. Slow physical growth before and after birth

4. According to the MN Adopt Fact Sheet, five strategies to keep in mind when working with children and adolescents with FASD are:

- a. Implement daily routines
- b. Create and enforce simple rules and limits
- c. Teach your child skills in daily living
- d. Careful choice who you best to care for your child
- e. Because children with fetal alcohol syndrome are vulnerable

5. a. Please identify any questions that you have at this time regarding FASD:
none

b. Identify 2 agency resources that you can use for more information and/or consultation:
1) Mayo clinic 2) Dakota county
