Individual Abuse Prevention Plan (IAPP)

Instructions and requirements:

This program is required to establish and enforce ongoing written individual abuse prevention plans as required under Minnesota Statutes, section [626.557](#), subdivision 14 and section [245A.65](#), subdivision 2 (b).

Development and review of the plan: An individual abuse prevention plan shall be developed for each new person as part of the initial individual program plan or service plan required under the applicable licensing rule. The review and evaluation of the individual abuse prevention plan shall be done as part of the review of the program plan or service plan. The person receiving services shall participate in the development of the individual abuse prevention plan to the full extent of the person's abilities. If applicable, the person's legal representative shall be given the opportunity to participate with or for the person in the development of the plan. The interdisciplinary team shall document the review of all abuse prevention plans at least annually, using the individual assessment and any reports of abuse relating to the person. The plan shall be revised to reflect the results of this review.

Plan contents: The plan shall include a statement of measures that will be taken to minimize the risk of abuse to the vulnerable adult when the individual assessment required in section 626.557, subdivision 14, paragraph (b), indicates the need for measures in addition to the specific measures identified in the program abuse prevention plan. The measures shall include the specific actions the program will take to minimize the risk of abuse within the scope of the licensed services, and will identify referrals made when the vulnerable adult is susceptible to abuse outside the scope or control of the licensed services. When the assessment indicates that the vulnerable adult does not need specific risk reduction measures in addition to those identified in the program abuse prevention plan, the individual abuse prevention plan shall document this determination.

Requirements of [626.557](#), subd. 14(b): Each facility, including a home health care agency and personal care attendant services providers, shall develop an individual abuse prevention plan for each vulnerable adult residing there or receiving services from them. The plan shall contain an individualized assessment of: (1) the person's susceptibility to abuse by other individuals, including other vulnerable adults; (2) the person's risk of abusing other vulnerable adults; and (3) statements of the specific measures to be taken to minimize the risk of abuse to that person and other vulnerable adults. For the purposes of this paragraph, the term "abuse" includes self-abuse.

Persons with history of violent crime an act of physical aggression toward others: If the program knows that the vulnerable adult has committed a violent crime or an act of physical aggression toward others, the individual abuse prevention plan must detail the measures to be taken to minimize the risk that the vulnerable adult might reasonably be expected to pose to visitors to the facility and persons outside the facility, if unsupervised. Under this section, a facility knows of a vulnerable adult's history of criminal misconduct or physical aggression if it receives such information from a law enforcement authority or through a medical record prepared by another facility, another health care provider, or the facility's ongoing assessments of the vulnerable adult.

Legal Authority: MS §§ [245D.071](#), subd. 2, [245A.65](#), subd. 2, and [626.557](#), subd. 14

Individual Abuse Prevention Plan (IAPP)

Person's Name: Karen Loven

Program: PAI Commerce

Instructions: For each area, assess whether the person is susceptible to abuse by others and the person's risk of abusing other vulnerable people. If susceptible, indicate why by checking the appropriate reason or by adding a reason. Identify specific measures to be taken to minimize the risk within the scope of licensed services and identify referrals needed when the person is susceptible outside the scope or control of the licensed services. If the person does not need specific risk reduction measures in addition to those identified in the program abuse prevention plan, document this determination and identify the area of the program prevention plan that addresses the area of susceptibility.

A. Sexual abuse

Is the person susceptible to abuse in this area? Yes (if any area below is checked) No

- Lack of understanding of sexuality
- Likely to seek or cooperate in an abusive situation
- Inability to be assertive
- Other:

Specific measures to minimize risk of abuse for each area checked:

- Karen has a limited understanding of sexuality. Karen knows when someone has touched her inappropriately and has accurately reported this in the past. If the perpetrator was a trusted individual, Karen may not recognize the situation as abuse.
- Karen is not likely to seek out an abusive situation but may participate if the perpetrator was a trusted person and Karen did not recognize the situation as abuse.
- Karen is unable to be assertive in some situations. Karen is usually a good advocate for herself and can verbalize what she does and not does consent to, however Karen may be intimidated to not report abuse if the perpetrator was a trusted person or if Karen did not recognize the situation as abuse.
- **All Areas:** Karen will be encouraged to participate in social skills classes available at PAI to work on appropriate boundaries and relationships with others. If staff ever found or suspected that Karen was in an abusive situation, staff would remove Karen from the situation immediately and relocate her to a safe location. Staff would notify Karen's guardian and residence and help Karen make a report or contact the authorities if necessary. All staff at PAI are mandated reporters. Staff are trained at time of hire on mandated reporting and annually thereafter. Staff are always with Karen in the community and at PAI and will help Karen advocate on her behalf. Staff will have discussions with Karen following any situations where Karen was unable to be assertive with others and review and role play ways Karen can advocate for herself.

Referrals made when the person is susceptible to abuse outside the scope or control of this program (Identify the referral and the date it occurred). No referrals needed at this time.
