

PAI

SERVICE OUTCOME AND SUPPORT

Name: Jason Hansen Outcome #: 1
Date of development: 3/4/21
Projected start date for implementation: 3/22/21
Date by which progress towards accomplishing the outcome will be reviewed and evaluated: 9/22/2021

Outcome statement with measurable and observable criteria for outcome achievement: Twice a week, Jason will participate/join a group activity of his choosing 80% of all trials over a six month period.

Methods or actions that will be used to support the person and to accomplish the outcome: Jason will choose a group and participate in the group he chose daily. Staff will inform Jason of his options for groups and watch Jason's expression and body language. Jason will decide his group by pointing or showing a positive effect. Jason will join the group he chose.

Changes or modifications necessary to the physical and social environments: A relatively quiet environment for Jason to hear his choices.

Equipment and/or materials required: Group choices

Techniques that are used that are consistent with the person's communication mode: Jason communicates through the use of gestures, signs, body language, and pointing.

Techniques that are used that are consistent with the person's learning style: Jason learns through modeling, hand-over-hand assistance, verbal cues and touch prompts/pointing.

Data collection method: Data will be collected twice weekly.

Names of staff or positions responsible for implementing the supports and methods: DSP, Lead DSP, Designated Coordinator
