

PAI

SERVICE OUTCOME AND SUPPORT

Name: Michelle Scott

Outcome #: 1

Date of development: 4/2/2020

Projected start date for implementation: 4/6/2020

Date by which progress towards accomplishing the outcome will be reviewed and evaluated: 4/2/22

Outcome statement with measurable and observable criteria for outcome achievement: Weekly, Shelly will choose a music genre to listen to 75% of all trials over a 12 month period.

Methods or actions that will be used to support the person and to accomplish the outcome: Shelly will choose a music genre to listen to. Staff will verbally tell Shelly two different genres and play a clip of the song for Shelly to choose from. Shelly will make her choice with facial expressions and body language. Staff will play the genre Shelly chose.

Changes or modifications necessary to the physical and social environments: Relatively quiet environment to allow Shelly to hear.

Equipment and/or materials required: Ipad

Techniques that are used that are consistent with the person's communication mode: It is best to communicate with Shelly using verbal and tactile communication.

Techniques that are used that are consistent with the person's learning style: The best conjecture of the team is that Shelly's learning style is kinesthetic, tactile, auditory and through repetition.

Data collection method: Data will be collected weekly.

Names of staff or positions responsible for implementing the supports and methods: DSP, Lead DSP, Designated Coordinator
