General Plan Notes:

Molly enjoys going to YMCA/Maplewood Community Center 4-5 times a week with her mother; reading books; dancing; using the trampoline; dressing with style; sewing (making masks for people which they donate to schools); writing stories; using social media/YouTube; participating in Special Olympics- bowling, track; going on the 4 wheeler; going to the family cabin; baking/cooking; going out to eat/take out from The Eggroll Queen; biking with her parents; going for walks.

Molly likes to travel, exercise, have and care for animals, and tell stories with her kind, far-ranging, and often humorous insights. It is important for Molly to be involved with decisions that pertain to her immediate and future life. Molly described her good days as: Having activities to do; being with friends and family; going places. On Thursdays Molly goes and gets a cupcake from Cub foods. Days that goes shopping or she receives her ebay or Amazon orders are also good days. Molly described her bad days as: Not being around friends or family; lack of things to do; not exercising. A bad day she said is "a good day in disguise". Molly identified some of her strengths as: having a positive attitude, a sense of humor, "I can be swift, I love animals, am motivated to work and am a hard worker. I am helpful and I like to be social".

RISKS

How will Health and Safety Issues be Addressed?

Molly needs a 24-hour plan of care. Her current supports and services provide this level of care. She needs a guardian, rep payee and staff to help ensure basic needs are met. Guardian and support services work together to ensure Molly's basic needs are met. Molly has an Intellectual Developmental Disability Case Manager that works with the team to ensure service needs are being met by providers. Her team works together to protect Molly as a vulnerable adult.

The following table documents and acknowledges any risks that exist based on identified remaining needs above.

Identified risk and choice regarding services	Negative outcome that may result	Alternative measure that may be implemented

Summary plan/agreement reached to address the identified risks:

See provider IAPP plans.

Emergency & Back Up Plans

Plan for unforeseen events (e.g, weather, storms, power outages)

Molly needs others to monitor and make decisions related to unforeseen events. In the event of severe weather staff will assist Molly with severe weather procedures and family will assist with supports in the event of storms or power outages.

Plan for emergency health events

Molly is able to call 911 in an emergency. Molly's primary care physician should also be notified of health change/ event. In the event that Molly requires hospitalization, her hospital of choice is where she should receive her care, unless otherwise decided.

Molly's guardians will notify CM of hospitalization that require overnight stay for more than one night.

911	Emergency response	
DJ Macedo	Waiver case manager	(952) 767-4846

Plan for unavailable staffing that puts the person at risk

Molly currently lives with her parents; she is under supervision while at her employment/vocational site. In the event of unavailable staffing Lifeworks will work with Guardians to ensure staffing in place. At PAI current staff will remain with Molly until a replacement staff is found. If unavailable staffing becomes a pattern/ issue Molly's Guardian can inform waiver case manager to ensure Molly's needs are being met.
