

SERVICE OUTCOME AND SUPPORT	
Name: Mary Bromander	Outcome #: 1
Date of development: 4/6/2021	
Projected start date for implementation: 4/12/2021	
Date by which progress towards accomplishing the outcome will be reviewed and evaluated: 4/12/2022	
Outcome statement with measurable and observable criteria for outcome achievement:	
Twice a week using the MAC switch, Mary will make a choice between two music genres in 70% of trials for a twelve-month period.	
Methods or actions that will be used to support the person and to accomplish the outcome: Staff will record a small clip of two different music genres on the MAC switch. Staff would assist Mary with pressing each of the buttons to listen to the different clips. Staff will then ask Mary to choose which music genre she would like to listen to. After Mary chooses, they will then utilize the computer or Ipad to play the music genre that she has chosen.	
Changes or modifications necessary to the physical and social environments:	
NA	
Equipment and/or materials required:	
MAC switch Computer/Ipad	
Techniques that are used that are consistent with the person's communication mode:	
Mary communicates via vocalizations, reaching for things she would like and pushing away things she does not want, and facial expressions. Mary understands short verbal communication and will make choices by touching objects or things.	
Techniques that are used that are consistent with the person's learning style:	
Mary's learning style appears to be auditory and kinesthetic.	
Data collection method:	
Data will be collected twice weekly	
Names of staff or positions responsible for implementing the supports and methods:	
DSP, Lead DSP, and Program Supervisor.
