## Individual Abuse Prevention Plan (IAPP)

### Instructions and requirements:

This program is required to establish and enforce ongoing written individual abuse prevention plans as required under Minnesota Statutes, section [626.557](#), subdivision 14 and section [245A.65](#), subdivision 2 (b).

Development and review of the plan: An individual abuse prevention plan shall be developed for each new person as part of the initial individual program plan or service plan required under the applicable licensing rule. The review and evaluation of the individual abuse prevention plan shall be done as part of the review of the program plan or service plan. The person receiving services shall participate in the development of the individual abuse prevention plan to the full extent of the person's abilities. If applicable, the person's legal representative shall be given the opportunity to participate with or for the person in the development of the plan. The interdisciplinary team shall document the review of all abuse prevention plans at least annually, using the individual assessment and any reports of abuse relating to the person. The plan shall be revised to reflect the results of this review.

Plan contents: The plan shall include a statement of measures that will be taken to minimize the risk of abuse to the vulnerable adult when the individual assessment required in section 626.557, subdivision 14, paragraph (b), indicates the need for measures in addition to the specific measures identified in the program abuse prevention plan. The measures shall include the specific actions the program will take to minimize the risk of abuse within the scope of the licensed services, and will identify referrals made when the vulnerable adult is susceptible to abuse outside the scope or control of the licensed services. When the assessment indicates that the vulnerable adult does not need specific risk reduction measures in addition to those identified in the program abuse prevention plan, the individual abuse prevention plan shall document this determination.

Requirements of [626.557](#), subd. 14(b): Each facility, including a home health care agency and personal care attendant services providers, shall develop an individual abuse prevention plan for each vulnerable adult residing there or receiving services from them. The plan shall contain an individualized assessment of: (1) the person's susceptibility to abuse by other individuals, including other vulnerable adults; (2) the person's risk of abusing other vulnerable adults; and (3) statements of the specific measures to be taken to minimize the risk of abuse to that person and other vulnerable adults. For the purposes of this paragraph, the term "abuse" includes self-abuse.

Persons with history of violent crime an act of physical aggression toward others: If the program knows that the vulnerable adult has committed a violent crime or an act of physical aggression toward others, the individual abuse prevention plan must detail the measures to be taken to minimize the risk that the vulnerable adult might reasonably be expected to pose to visitors to the facility and persons outside the facility, if unsupervised. Under this section, a facility knows of a vulnerable adult's history of criminal misconduct or physical aggression if it receives such information from a law enforcement authority or through a medical record prepared by another facility, another health care provider, or the facility's ongoing assessments of the vulnerable adult.

Legal Authority: MS §§ [245D.071](#), subd. 2, [245A.65](#), subd. 2, and [626.557](#), subd. 14
