

PAI

SERVICE OUTCOME AND SUPPORT

Name: Justine Pullum

Outcome #: 1

Date of development: 3/16/20

Projected start date for implementation: 3/23/20

Date by which progress towards accomplishing the outcome will be reviewed and evaluated: 9/2/22

Outcome statement with measurable and observable criteria for outcome achievement: Daily, Justine will choose a music genre to listen to 80% of all trials over a 6 month recording period.

Methods or actions that will be used to support the person and to accomplish the outcome: Justine will choose a music genre by eye pointing, facial expressions, or body language. Staff will offer Justine different music genres by saying the genre and playing part of a song in the genre. Justine will choose a genre by showing interest in it.

Changes or modifications necessary to the physical and social environments: A relatively quiet environment so Justine can hear the music being played.

Equipment and/or materials required: iPad

Techniques that are used that are consistent with the person's communication mode: Justine communicates using facial expressions and vocalizations.

Techniques that are used that are consistent with the person's learning style: Kinesthetic and vestibular

Data collection method: Data will be collected daily.

Names of staff or positions responsible for implementing the supports and methods: DSP, Lead DSP, Designated Coordinator
