

PAI

- **Individual Abuse Prevention Plan (IAPP)**

Instructions and requirements:

This program is required to establish and enforce ongoing written individual abuse prevention plans as required under Minnesota Statutes, section [626.557](#), subdivision 14 and section [245A.65](#), subdivision 2 (b).

Development and review of the plan: An individual abuse prevention plan shall be developed for each new person as part of the initial individual program plan or service plan required under the applicable licensing rule. The review and evaluation of the individual abuse prevention plan shall be done as part of the review of the program plan or service plan. The person receiving services shall participate in the development of the individual abuse prevention plan to the full extent of the person's abilities. If applicable, the person's legal representative shall be given the opportunity to participate with or for the person in the development of the plan. The interdisciplinary team shall document the review of all abuse prevention plans at least annually, using the individual assessment and any reports of abuse relating to the person. The plan shall be revised to reflect the results of this review.

Plan contents: The plan shall include a statement of measures that will be taken to minimize the risk of abuse to the vulnerable adult when the individual assessment required in section 626.557, subdivision 14, paragraph (b), indicates the need for measures in addition to the specific measures identified in the program abuse prevention plan. The measures shall include the specific actions the program will take to minimize the risk of abuse within the scope of the licensed services, and will identify referrals made when the vulnerable adult is susceptible to abuse outside the scope or control of the licensed services. When the assessment indicates that the vulnerable adult does not need specific risk reduction measures in addition to those identified in the program abuse prevention plan, the individual abuse prevention plan shall document this determination.

Requirements of [626.557](#), subd. 14(b): Each facility, including a home health care agency and personal care attendant services providers, shall develop an individual abuse prevention plan for each vulnerable adult residing there or receiving services from them. The plan shall contain an individualized assessment of: (1) the person's susceptibility to abuse by other individuals, including other vulnerable adults; (2) the person's risk of abusing other vulnerable adults; and (3) statements of the specific measures to be taken to minimize the risk of abuse to that person and other vulnerable adults. For the purposes of this paragraph, the term "abuse" includes self-abuse.

Persons with history of violent crime an act of physical aggression toward others: If the program knows that the vulnerable adult has committed a violent crime or an act of physical aggression toward others, the individual abuse prevention plan must detail the measures to be taken to minimize the risk that the vulnerable adult might reasonably be expected to pose to visitors to the facility and persons outside the facility, if unsupervised. Under this section, a facility knows of a vulnerable adult's history of criminal misconduct or physical aggression if it receives such information from a law enforcement authority or through a medical record prepared by another facility, another health care provider, or the facility's ongoing assessments of the vulnerable adult.

Legal Authority: MS §§ [245D.071](#), subd. 2, [245A.65](#), subd. 2, and [626.557](#), subd. 14

PAI

Individual Abuse Prevention Plan (IAPP)

Person's Name: Jillian Jaszewski

Program: PAI-Linden

Instructions: For each area, assess whether the person is susceptible to abuse by others and the person's risk of abusing other vulnerable people. If susceptible, indicate why by checking the appropriate reason or by adding a reason. Identify specific measures to be taken to minimize the risk within the scope of licensed services and identify referrals needed when the person is susceptible outside the scope or control of the licensed services. If the person does not need specific risk reduction measures in addition to those identified in the program abuse prevention plan, document this determination and identify the area of the program prevention plan that addresses the area of susceptibility.

A. Sexual abuse

Is the person susceptible to abuse in this area? Yes (if any area below is checked) No

- Lack of understanding of sexuality**
- Likely to seek or cooperate in an abusive situation**
- Inability to be assertive**
- Other: Inaccurate self-reporter**

Specific measures to minimize risk of abuse for each area checked:

- **Lack of understanding of sexuality:** Jilli has been diagnosed with a cognitive disability. Due to this condition, she may not understand how to advocate for herself or have a clear understanding of sexuality. Her cognitive disability could make it difficult to accurately report any sexual abuse.
- **Likely to seek or cooperate in an abusive situation and the inability to be assertive:** Jilli has been diagnosed with a cognitive disability and cerebral palsy with spastic quadriplegia. Due to these conditions, she is unable to physically be assertive and may inadvertently cooperate in an abusive situation due to her limited understanding and inability to defend herself.
- **Inability to report to the appropriate person if abused:** Due to Jilli's disabilities she is at risk of not being able to report to the appropriate person in a timely manner should she find herself in an abusive situation, and would not be able to independently file a report should she need to.
- **All areas:** Staff provide visual supervision of Jilli at all times in the building and while in the community. If a staff were to witness sexual abuse of Jilli, staff will verbally tell the abuser to stop, and proceed to assist her to a safe location. Staff will look Jilli over, noting any potential injuries. Staff will provide first aid per their training, and if warranted seek further medical attention. All PAI staff are mandated reporters and are trained upon hire and again annually on MN State Vulnerable Adult Law and company Vulnerable Adult Maltreatment Reporting and Review Policies and Procedures. Staff will report any suspected or confirmed maltreatment of Jilli per PAI policy.

Referrals made when the person is susceptible to abuse outside the scope or control of this program (Identify the referral and the date it occurred). At this time no referrals are needed.

B. Physical Abuse

PAI

Is the person susceptible to abuse in this area? Yes (if any area below is checked) No

- Inability to identify potentially dangerous situations
- Lack of community orientation skills
- Inappropriate interactions with others
- Inability to deal with verbally/physically aggressive persons
- Verbally/physically abusive to others
- "Victim" history exists
- Other:

Specific measures to minimize risk of abuse for each area checked:

- **Inability to identify potentially dangerous situations:** Jillie has been diagnosed with a cognitive disability and cerebral palsy with spastic quadriplegia. Due to these conditions, she would likely be unable to identify if a situation is dangerous or unsafe. Staff will provide support to Jillie by assisting her with identifying potentially dangerous situations and help steer clear of such situations, or removing her from an environment that could potentially be dangerous.
- **Lack of community orientation skills:** Staff provide visual supervision of Jillie while at program and in the community. Jillie needs staff assistance in operating her electric wheelchair while out in the community. Staff will assist Jillie with operating her wheelchair and demonstrating appropriate safety skills while in the community.
- **Inability to deal with verbally/physical aggressive persons:** Jillie has been diagnosed with a cognitive disability and cerebral palsy with spastic quadriplegia. Due to this she may not be able to deal with verbally/physically aggressive persons. She may need assistance from staff or caregivers in operating her wheelchair, as such Jillie may not be able to independently leave a potentially abusive situation, or verbally/aggressive persons.
- **All areas:** Jillie has been diagnosed with a cognitive disability. Due to this she may not be able to identify a potential abusive situation. Jillie also may not be able to accurately report abuse. Staff provide visual supervision of Jillie at PAI program and while in the community. If a staff were to witness physical or emotional abuse of Jillie, staff will verbally tell the abuser to stop and assist Jillie in exiting the abusive situation. Staff will look Jillie over, noting any potential injuries. Staff will provide first aid per their training, and if warranted seek further medical attention. All PAI staff are mandated reporters and are trained upon hire and again annually on MN State Vulnerable Adult Law and company Vulnerable Adult Maltreatment Reporting and Review Policies and Procedures. Staff will report any suspected or confirmed maltreatment of Jillie per PAI policy.

Referrals made when the person is susceptible to abuse outside the scope or control of this program (Identify the referral and the date it occurred). At this time no referrals are needed.

C. Self-Abuse

PAI

Is the person susceptible to abuse in this area? Yes (if any area below is checked) No

- Dresses inappropriately
- Refuses to eat
- Inability to care for self-help needs
- Lack of self-preservation skills (ignores personal safety)
- Engages in self-injurious behaviors
- Neglects or refuses to take medications
- Other:

Specific measures to minimize risk of abuse for each area checked:

- **Dresses inappropriately:** Jilli has been diagnosed with a cognitive disability and cerebral palsy with spastic quadriplegia. As a result of her disability she requires assistance in dressing for weather conditions and extreme temperatures. Staff observe and monitor weather conditions and provide her with the appropriate clothing for the present weather. This may include the use of a hat, coat/jacket, gloves, etc during the winter months, and to ensure she is not overdressed during the summer months. Due to Jilli's physical disabilities, staff provide assistance to her in putting on clothing that is appropriate for the current weather conditions.
- **Inability to care for self-help needs:** Jilli has been diagnosed with a cognitive disability and cerebral palsy with spastic quadriplegia. Due to her disability she requires full assistance in caring for much of her self-help needs. Staff are trained to Jilli's self-help needs and communicate with her while assisting her with self-help tasks.
- **Lack of self-preservation skills (ignores personal safety):** Jilli has been diagnosed with a cognitive disability and cerebral palsy with spastic quadriplegia. She may not understand when a situation is not safe, and does not have the physical ability to keep herself out of unsafe situations. Staff provide supervision of Jilli at all times. Staff intervene on her behalf if a potentially dangerous situation were to develop. If needed, staff will look Jilli over, noting any potential injuries and will provide any necessary first aid per their training. If warranted staff will seek further medical attention for Jilli. All staff are mandated reporters and are trained upon hire and annually thereafter to the MN State Vulnerable Adult Law and company Vulnerable Adult Maltreatment Reporting and Review Policy and Procedures. Staff will report all suspected or known maltreatment of Jilli per company policy. Staff will call 911 on Jilli's behalf in the event of an emergency.
- **Neglects or refuses to take medications:** Jilli has been diagnosed with a cognitive disability and cerebral palsy with spastic quadriplegia. She requires full assistance in preparation of her medications, and full assistance in the administration of her medications. Staff are trained in medication passing.
- **All areas:** Staff will provide physical assistance to Jilli as needed to assure her self-preservation and that her needs are met. If a staff were to witness self-abuse by Jilli, staff will advocate for her. If needed, staff will look Jilli over, noting any potential injuries and will provide any necessary first aid per their training. If warranted staff will seek further medical attention on Jilli's behalf. All staff are mandated reporters and are trained upon hire and annually thereafter to the MN State Vulnerable Adult Law and company Vulnerable Adult Maltreatment Reporting and Review Policy and Procedures. Staff will report any suspected or confirmed maltreatment of Jilli per PAI policy.

Referrals made when the person is susceptible to abuse outside the scope or control of this program

PAI

(Identify the referral and the date it occurred). At this time no referrals are needed.

D. Financial Exploitation

Is the person susceptible in this area? Yes (if any area below is checked) No

Inability to handle financial matters

Other:

Specific measures to minimize risk of abuse for each area checked:

- **Inability to handle financial matters:** PAI does not handle the safekeeping of money for Jill. Should Jill bring money to PAI to utilize while out in the community, staff will support her in making a purchase, collecting the correct change and receipt, and will send the change and receipt home with her at the end of the day. All staff are mandated reporters and are trained upon hire and annually thereafter to the MN State Vulnerable Adult Law and company Vulnerable Adult Maltreatment Reporting and Review Policy and Procedures. Staff will report all suspected or known financial maltreatment of Jill per company policy.

Referrals made when the person is susceptible to abuse outside the scope or control of this program (Identify the referral and the date it occurred). At this time, no referrals are needed.

E. Is the program aware of this person committing a violent crime or act of physical aggression toward others? Yes No

Specific measures to be taken to minimize the risk this person might reasonably be expected to pose to visitors to the program and persons outside the program, if unsupervised: N/A

Referrals made when the person is susceptible to abuse outside the scope or control of this program (Identify the referral and the date it occurred). At this time, no referrals are needed

An individual abuse prevention plan is developed for each new person as part of the initial service plan. The person will participate in the development of the plan to the full extent of their ability. When applicable, the person's legal representative will be given the opportunity to participate with or for the person in the development of the plan. The interdisciplinary team will document the review of the plan at least annually, using an individual assessment, as required in MN Statutes, section 245D.071, subd. 3, and any reports of abuse relating to the person. The plan shall be revised to reflect the results of this review.
