# PAI-Parkway Team Meeting

Date: 11/30/2022

---

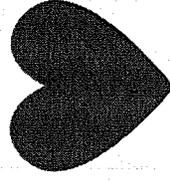

**Welcome**

Sign In

Introductions

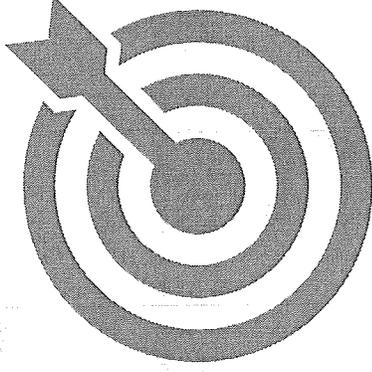

A moment of gratitude

---

# Agenda

**Welcome**  
**Site-Specific Updates**  
**Weely Autism Minute**  
**Agency-Wide Updates**  
**Development Updates**  
**Competency Reviews**

**Wrap Up**

---

## Site-Specific Updates

- Fridge clean out Friday
- Art Supplies
- Flu shot drawing
- Food and toy donation
- Phones
- Shadowing feedback

**NOTICE**

**FRIDAY IS  
"CLEAN THE FRIDGE DAY"**

**TAKE IT OR LOSE IT!**

---

# Weekly Autism Minute

## Review:

### Hyper/Hypo sensitivities

### Hyper or Hypo Sensitivities

#### Hyper-sensitive

- Over-reactive to stimulation.
- Tends to escape or avoid the stimulation.
- Agitated in presence of stimulation. May meltdown.
- May actually shutdown to ongoing stimulation.

#### Hypo-sensitive

- Under-reactive to input.
- May not register low level stimulation.
- May need high intensity of stimulation.
- Will often crave and seek out the stimulation.

Acts to Escape or Avoid

Actively Seeks Stimulation

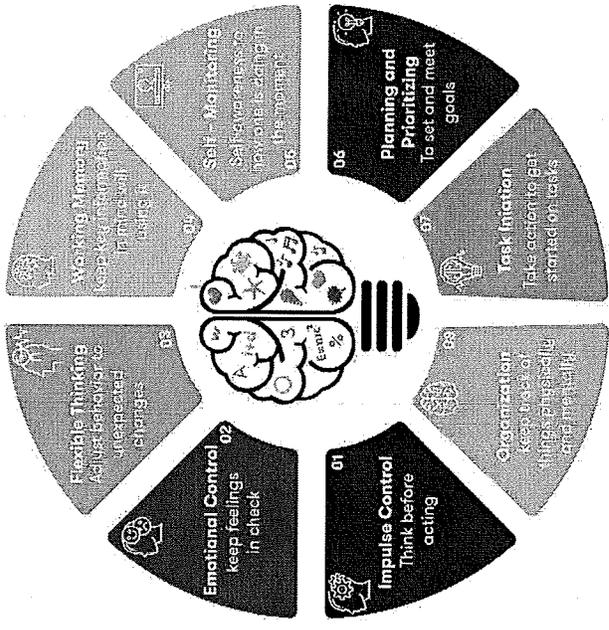

---

# Executive Functioning

Why do we need executive functioning?

- Flexible thinking
- Working memory
- Self-monitoring
- Planning and prioritizing
- Task initiation
- Organization
- Impulse control
- Emotional control

## EXECUTIVE FUNCTIONING

---

# Activity

## Divide into groups of 3

Choose one person to:

- Ask questions
- Answer
- Distract

What is your full name

What is your moms name

What is your house number

What is your favorite color

# Discussion

Purple

Yellow

Red

White

Yellow

Red

Orange

Green

Blue

Orange

Blue

Red

Purple

Green

---

# Reducing Barriers

Put your learning and experience to work:

Think of what can be done for:

1. Routine environments
- and
1. Novel environments

---

## Agency-Wide Updates

Jean and Nigh on-site Dec 2nd, 1-3 for benefits options

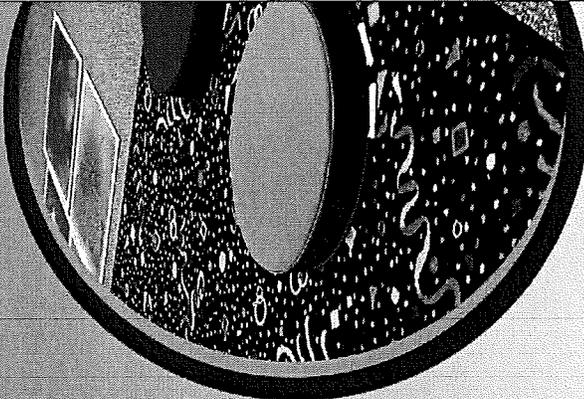

December LMS:

December Trainings
PAI LMS – Ombudsman Winter Alerts (0.5 Hours)
PAI LMS – Policy & Procedure - Illness Guidelines for Individuals (0.25 Hours)
PAI LMS – P&P - Reporting Maltreatment Vulnerable Adults (0.25 Hours)
PAI LMS – Van Driver Training (0.5 Hours)

---

## Development Updates

**PAI give MN**  
GIVE TO THE MAX 2022

**GOAL: \$5,000**

**36 Unique Donors!**

You raised \$3,793 for sensory-friendly Spaces!

PAIMN@PAIMN.ORG  
MORE WAYS TO GIVE:  
WWW.PAIMN.ORG

Thank you for your support!

**75** Percent of our goal was reached!

# Competency Reviews

Staff: \_\_\_\_\_

Service Recipient: Joe Harnett

Date: \_\_\_\_\_

Service Span: Oct 2022 – Oct 2023

## Outcomes:

**Outcome #1:** Joe will make a choice once/day.

**Outcome #2:** Joe will visit a friend/different program room once/week.

**Tracked Support:** During mealtime, Joe will bring the utensil up to his mouth for the first 5 minutes.

### Communication Style:

Vocalizations, body gestures, and facial expressions

### Learning Style:

Prefers gentle reminders, verbal cues, and to observe.

Is this person able to self-manage according to the IAPP, SMA & CSSPA – check yes or no below

<b>Allergies:</b> <input type="checkbox"/> No <input type="checkbox"/> Yes	List & Describe Supports: N/A
<b>Seizures:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: Joe has a seizure disorder, no PRN. During a seizure, he has his eyes open, head turned sideways, jaw clicks and occasional drooling- duration 30 seconds to 1 minute and occur 6 to 10 times a month.
<b>Choking:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: Joe takes very hard bites when he's eating, and is at risk of breaking plastic utensils with his teeth and may swallow his food without chewing it.
<b>Specialized Diet:</b> <input type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: N/A
<b>Chronic Medical Conditions:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	List & Describe Supports: Scoliosis, Harrington rod, GERD and history of aspiration pneumonia. DNR/DNI: <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes
<b>Medication at PAI:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: No daily meds at PAI.

<b>Personal Cares:</b> ■ No <input type="checkbox"/> Yes	Describe Supports: Uses arjo lift for full brief change. Trained staff are aware of his Harrington rod and are careful to transfer him without twisting or jarring. Joe may hurt others during lifts/ personal cares (biting, hitting, pulling hair).
<b>Mobility/Fall Risk:</b> ■ No <input type="checkbox"/> Yes	Describe Supports: Joe relies on staff to move his wheelchair and needs help repositioning.
<b>Community Support:</b> ■ No <input type="checkbox"/> Yes	Describe Supports: Staff stay with Joe at all times while in the community.
<b>Sensory Support:</b> ■ No <input type="checkbox"/> Yes	List & Describe Supports: Tactilely defensive around his face and may make sudden movements. Joe receives botox injections to help loosen his facial muscles.
<b>Behavior Support:</b> ■ No <input type="checkbox"/> Yes	List & Describe Supports: When Joe is upset, sick has GERD he bites his hands. Staff helps verbally and physically redirects him when he's biting his hands.
<b>Unsupervised Time:</b> ■ No <input type="checkbox"/> Yes	Describe Supports: No unsupervised time.

**Important to:** Playing games, listening to music, calm environment, choices, independence, family

**Important for:** Choices, staff knowing his transfer/ personal cares and about his Harrington rod- no twisting, staff knowing his communication style

**Likes:** Sports, Minnesota Twins, sports related activities, nature

**Dislikes:** Loud environments, music therapy

[Redacted]

Staff: Kathryn Stein

Date: \_\_\_\_\_

Service Recipient: Jessica Kreiner

Service Span: Oct 2022 – Oct 2023

**Outcomes:**

**Outcome #1:** Once per week, Jessica will pick a song to play for the room.

**Outcome #2:** Jessica will plan a visit with a friend in another program room twice a week.

**Communication Style:** iPad, ASL, gestures

**Learning Style:** Gentle reminders and verbal cues. Prefers to actively engage in activities, with opportunities to contribute ideas.

Is this person able to self-manage according to the **IAPP, SMA & Support Plan Addendum** – check yes or no below

<b>Allergies:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	List & Describe Supports: Seasonal
<b>Seizures:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: In the past, seizures have been triggered by crowded or noisy events and costumes such as Halloween costumes. Jessica can indicate the onset of a seizure by pointing to her head. Call 911 if seizure lasts greater than 5 mins or breathing problems.
<b>Choking:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: Staff cut her food into nickel sized pieces.
<b>Specialized Diet:</b> <input type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: N/A
<b>Chronic Medical Conditions:</b> <input type="checkbox"/> No <input type="checkbox"/> Yes	List & Describe Supports: N/A DNR/DNI: <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes
<b>Medication at PAI:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: Doesn't currently take any medications while at PAI.

<b>Personal Cares:</b> <input type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: Staff provides Jessica with verbal reminders to use the bathroom when she arrives and after lunch. She needs assistance in the bathroom wiping and to change her brief as needed.
<b>Mobility/Fall Risk:</b> <input type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: N/A
<b>Community Support:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: Staff model and demonstrate how to access the community safely by following safety rules and pedestrian guidelines.
<b>Sensory Support:</b> <input type="checkbox"/> No <input type="checkbox"/> Yes	List & Describe Supports: N/A
<b>Behavior Support:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	List & Describe Supports: When Jessica is excited or upset, she may tap her chest or hit her thighs, which could cause bruising. Jessica understands that her tapping may cause injury. At times, when frustrated, Jessica may pinch or squeeze someone's arm-which could lead to harm from retaliation. Jessica is accepting of staff assistance in both of these areas.
<b>Unsupervised Time:</b> <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes	Describe Supports: Jessica is allowed 5 minutes of alone time in the bathroom.

**Important to:** Justin, Music, her tablet, tiara's and accessories, dancing, friends, family.

**Important for:** Using her tablet to communicate, being understood, having time to type, engaging with others.

**Likes:** shopping, girly things, music, going to restaurants

**Dislikes:** Being told what to do,

---

## Wrap Up

Is there information you would like to provided at next meeting?

Any final thoughts?

## Executive functioning

We need executive functioning to:

- Make Plans
- Keep track of time/finish a task on time
- Multitask
- Analyze Ideas
- Ask for help

10

Executive functioning is one of the “internal environments” that can be affected and impact an individual’s ability to communicate effectively, timely, and functionally.

Executive functions consist of several mental skills that help the brain organize and act on information. These skills enable people to plan, organize, remember things, prioritize, pay attention and get started on tasks. They also help people use information and experiences from the past to solve current problems.

Having issues with executive functioning makes it difficult to:

Keep track of time

Make plans: this is broad! “Make plans” can mean for our brain to organize and “make a plan” to say something, “make plans” to stand up, “make plans” to wave, all the way to more complex plan making that includes:

Make sure work is finished on time

Multitask

Apply previously learned information to solve problems

Analyze ideas

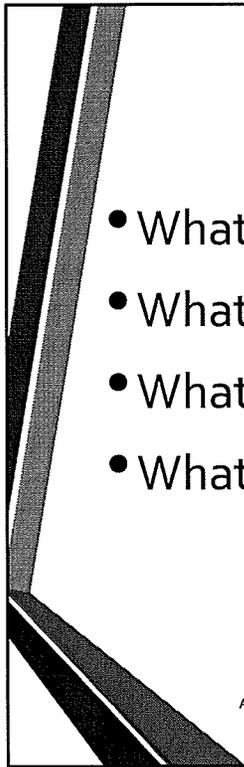

Look for help or more information when it is needed

(If needed – another example of how executive functioning works)

### **How Executive Functioning Works**

Here is an example of how the process works, broken down into six steps:

Analyze a task. Figure out what needs to be done.

- What is your full name
- What is your moms name
- What is your house number
- What is your favorite color

Autism Program Certification Level One Module One Part Three

12

We will go for one minute. The questioner will ask these 4 questions over and over:  
What is your name  
What is your moms name  
What is your house number  
What is your favorite color.

<b>Purple</b>	<b>Red</b>	<b>Blue</b>
<b>Yellow</b>	<b>Orange</b>	<b>White</b>
<b>Red</b>	<b>Green</b>	<b>Red</b>
<b>White</b>	<b>Blue</b>	<b>Purple</b>
<b>Yellow</b>	<b>Orange</b>	<b>Green</b>

Autism Program Certification Level One Module One Part Three

24

Instructions: Some words will pop up on the screen. Do not read the word, but say the color it is written in.

Do activity, click through words at roughly one word per second i.e. keep a brisk pace.

How was that? \*let group discuss\*

Now, I didn't do a baseline assessment of you guys, but I feel I can assume you all know your basic colors.

So this was difficult to do, even though you all have the basic skill of identifying and naming colors.

Now, let's imagine we combined these two activities. How you felt during the distractor activity, while attempting to do this activity.

This can give you insight into what it is like to have sensory processing difficulties. This was all information you knew, but it was difficult for you to get it out, and took you more time to process and respond appropriately.

Daily, our individuals are being presented with novel stimuli, and asked to work on developing new skills, all while working to process their sensory environment.

Discussion:

Reactions?

How did it feel to be the one answering and/or the one questioning?

What did you notice about your own sensitivities?

How were you able to focus –attend and plan a response?

\*take responses and experiences from as many, elicit feeling words as much as possible\*

Now imagine you are one with sensory processing issues, and the “distractor” was your daily environment.

These were simple questions that should have been easy to pull off the top of your head, and yet was difficult to do.

Implications?

## Reducing Barriers

Put your learning and experience to work:

Think of what can be done for:

1. Routine environments and
2. Novel environments

15

Taking all of the areas we have touched on today into consideration how might you go about reducing barriers to communicating and connecting with individuals?

This can and should be done for routine transitions and transitions into novel environments.

Briefly go through the list of environmental factors and consider an individual you work with; what you know about those clients and decide what adaptations to your communication may be helpful to make.

# Competency Tracking Form

Participant: Joe Harnett

Annual Service Span: Oct 2022 – Oct 2023

Annual Meeting Date: 10/25/2022 Date Assigned to Lead: 10/28/2022

Competency Quiz Due for all Staff: 11/30/2022

**Documents Reviewed:** Support Plan Addendum, IAPP, SMA, and a One-Page Profile.

\*Your initials below indicate you have reviewed and understand all assigned documents and have completed a competency quiz on the individual. This document is to be done in conjunction with on-site instruction on how to implement the reviewed plans and your demonstration of the understanding of the person as a unique individual.
