Competency Reviews

Hope Gustafson

January 2024 – January 2025

[redacted]

Is this person able to self manage according to the **IAP, EMA & Support Plan Addendum**? check yes or no below

Allergies: ☐ No ☐ Yes ☐ N/A	List & Describe Supports:	Medication Allergies? ☐ No ☐ Y *Listed on MAR, only adminis meds per dr. order*
Seizures: ☐ No ☐ Yes ☐ N/A	Describe Supports:	
Choking/ Specialized Diet: ☐ No ☐ Yes	Describe Supports: Hope will eat food very quickly and will not wait for it to cool before eating. When eating, staf will ask Hope to place a napkin on her lap to wipe her hands to replace her desire to wipe her hands on her pants. Staff will monitor the temperature of Hope's food, and will provide verba prompts to slow down while eating. Staff will cut Hope's food into bite-size pieces.	
Chronic Medical Conditions: ☐ No ☐ Yes ☐ N/A	List & Describe Supports:	DNR/DNI? ☐ No ☐ Y *Located in main file, sha with EMT in emergenc
Medication: ☐ No ☐ Yes	Describe Supports:	Daily medication at PAI? ☐ No ☐ Y *A trained staff will administer me per a signed dr. order*

[redacted]

Personal Cares: ☐ No ☐ Yes	Describe Supports: Mostly independent (will occasionally ask for help).
Mobility/Fall Risk: ☐ No ☐ Yes	Describe Supports: Hope may not navigate obstacles, ice, curbs, etc. She can be easily distracted and may not pay attention to where she is walking. Staff will offer verbal and point prompts to remind to Hope to "look" or "watch" where she is walking. When in icy or wet areas, staff will offer an arm for additional support.
Community Support: ☐ No ☐ Yes	Describe Supports: ☐ Staff will model pedestrian & stranger safety, provide transportation in the community, & provide supervision to meet health & safety needs
Sensory Support: ☐ No ☐ Yes ☐ N/A	List & Describe Supports: Hope may be sensitive to loud noises. Staff will attempt to dampen environmental sensory stimuli (turn music down, turn off lights) to aid in successful de-escalation of overstimulation. Staff will also provide access to a sensory area if she needs a place to calm down and have time to herself. Hope can have unsupervised time in a breakout room for up to 5 minutes. Hope must be accompanied by staff when walking in the hallway (when agitated).

[redacted]

Behavior Support: ☐ No ☐ Yes	List & Describe Supports: • **Self-injurious behaviors:** Hope has a history of hitting herself in the head when upset. Though this has not been seen in a long time, staff will watch for signs of frustration and will work to help Hope de-escalate. • **Change/transitions:** Hope may become upset if there is a change in her routine. Hope also struggles with transitions. Staff will inform Hope of any changes in her routine ahead of time to give her time to process the change. Verbal cues, visual cues, social stories and visual prompts (such as clocks or timers) help Hope through transition times and changes in her routine. • **Physical aggression:** When upset, angry, frustrated and/or sad, Hope may reach out and grab hair, hit or throw objects. Staff will visually monitor Hope for signs of distress and redirect her to walk in the hallways, as this seems to help her. When she is walking in the hallways, staff remain with Hope to monitor and intervene if she were to reach out to a peer. Staff may also re-direct hope to a sensory/breakout room where she can use
	the iPad to cool down. If Hope chooses to use the iPad in a sensory/breakout room, she can maintain unsupervised for up to 5-10 minutes. Staff will help Hope identify her feelings and help her work towards self-regulation. If 1:1 for an hour, Hope will be picked up.

[redacted]

Unsupervised time while at PAI? ☐ No ☐ Yes Up to 5 minutes
Important to: music, iPad, walks, independence
Important for: taking walks, especially when agitated, prompting independence, persistence, re-direction, self-regulation, participation
Likes: iPad, gloves, music, taking walks
Dislikes: loud noises (i.e. balloons), escalators, merry-go-rounds, the city bus
Communication Style: Short verbal responses/phrases, vocalizations, body language, some signs
Learning Style: Modeling and repetition

Marissa Volenec

November 2023 to November 2024

[redacted]

Allergies: ☐ No ☐ Yes ☐ N/A	List & Describe Supports: Medication Allergies? ☐ No ☐ Yes *Listed on MAR, only administer meds per dr. order* **Marissa has Allergic Rhinitis (seasonal allergies, Hay Fever). Staff are aware and trained on Marissa's allergies.**
Seizures: ☐ No ☐ Yes ☐ N/A	Describe Supports: **N/A**
Choking/ Specialized Diet: ☐ No ☐ Yes	Describe Supports: **Marissa is provided close visual monitoring when she is working on crafts, art, or is in proximity of objects that can be placed in her mouth. Staff provide verbal prompts and opportunities for redirection if she attempts to place inedible objects in her mouth. Staff will monitor Marissa as she eats, and provide verbal prompts for her to slow down. Staff will also cut Marissa's food into bite size pieces to help reduce the risk of choking.**
Chronic Medical Conditions: ☐ No ☐ Yes ☐ N/A	List & Describe Supports: DNR/DNI? ☐ No ☐ Yes *Located in main file, share with EMT in emergency* **No chronic medical conditions.**
Medication: ☐ No ☐ Yes	Describe Supports: Daily medication at PAI? ☐ No ☐ Yes *A trained staff will administer meds per a signed dr. order* **Marissa does not take medications at PAI.**

[redacted]

Personal Cares: ☐ No ☐ Yes	Describe Supports: **Marissa requires full assistance in the bathroom.**
Mobility/Fall Risk: ☐ No ☐ Yes	Describe Supports: **Staff offer Marissa their arm or hand and provide her with verbal prompts/directions to guide her.**
Community Support: ☐ No ☐ Yes	Describe Supports: ☐ Staff will model pedestrian & stranger safety, provide transportation in the community, & provide supervision to meet health & safety needs
Sensory Support: ☐ No ☐ Yes ☐ N/A	List & Describe Supports: **If Marissa is overstimulated, staff may ask if she would like a break, while providing their hand for "yes/no" communication. Staff may also offer to take her on a walk. Staff will attempt to dampen environmental sensory stimuli (turn music down, turn off lights) to aid in successful de-escalation of overstimulation. Staff model appropriate social behavior and help her to communicate her wants/needs.**

[redacted]

Unsupervised time while at PAI? ☐ No ☐ Yes **No unsupervised time.**
Important to: Music, iPad, getting to do preferred activities, going out into the community, being able to communicate wants/needs, manipulatives, sensory time, looking at the window, walks/visiting peers and personal/quiet space.
Important for: It is important to encourage Marissa to participate in activities, give her choices and the opportunity to communicate her wants and needs, provide her with a calm and positive environment, talk to her about her feelings and emotions, take her for walks/visit with peers and give her space when needed. It is important for Marissa that she is able to self-regulate.
Likes: Marissa likes her manipulative (especially books), music, iPad, going for walks/visiting, going into the community and looking out the window, fans.
Dislikes: Marissa does not like when she is uncomfortable and needs to use the bathroom, crowds, too many people talking at once a loud/chaotic environment and transitions.

[redacted]

Communication Style: Non-verbal. Communicates with body language and vocalizations.
Learning Style: Observation and repetition.

Tomorrow: 1:45-2:45

Wrap Up

Is there information you would like to provided at next meeting?

Any final thoughts?
