

Chapter 6 Part II

Know Figures:

6-17 pg. 181

6-19 pg. 183

6-20 pg. 183

6-21 pg. 183

6-22 pg. 184

6-23 pg. 184

Skeleton (from pelvis down) on pg. 194

- **answers**
 - **#3 iliac crest**
 - **#5 sacrum**
 - **#7 femur**
 - **#8 patella**
 - **#9 tibia**
 - **#10 fibula**

Word elements pg. 174

ankyl/o

-blast, blast/o

calcane/o

carp/o

chondr/i, chondr/o

gen/o

ili/o

ischi/o

kyph/o

lamin/o

lord/o

lumb/o
-malacia
myel/o
orth/o
oste/o
-physis
-porosis
radi/o
sten/o
vertebr/o

Pathological conditions pg. 178

osteoporosis
osteomalacia
osteomyelitis
osteogenic sarcoma
osteochondroma
Paget's disease
Talipes equinovarus
abnormal curvature of the spine
 kyphosis
 lordosis
 scoliosis
fracture (words in paragraphs)
 closed fracture
 open fracture
 complete fracture
 greenstick fracture
 compression fracture
 impacted fracture
 comminuted fracture

Colles' fracture
Hairline or stress fracture
Pathological fractures
Occult fracture
Treatment of fractures (words in paragraphs)
Closed reduction
ORIF- open reduction internal fixation (not in the book)
Open reduction

Procedures pg. 186

Bone scan

Dual energy x-ray absorptiometry (DEXA)

Common abbreviations pg. 189- Know all of them
