

Chapter 8 Part II

Word elements pg. 275

-algesia

alges/o

-algia

brady-

cerebr/o

crani/o

encephal/o

-lepsy

-lexia

mening/o

myel/o

neur/o

-paresis

-phasia

-plegia

Pathological conditions pg. 277

Alzheimer's disease

Anencephaly

Bell's palsy

Carpal tunnel syndrome

Cerebral palsy

Cerebrovascular accident (CVA) pg. 281

- **Thrombosis**
- **Embolism**

- **Transient ischemic attack (TIA)**

Degenerative disk

Grand mal seizure

Petit mal seizure

Herniated disk

Hydrocephalus

Meningitis (acute bacterial)

Multiple sclerosis

Parkinson's disease

Shingles (herpes zoster)

Skull fracture (depressed)

Meningocele

Spina bifida occulta

Procedures pg. 298

Cerebral angiography

Electroencephalography (EEG)

Laminectomy

Lumbar puncture

Myelography

Positron emission tomography (PET scan)

Transcutaneous electrical nerve stimulation (TENS)

Abbreviations pg. 305

ANS

CNS

CSF

CT

CVA

ECT

EEG

LP
MRI
MS
PET
TIA
